## To Rebuild Garage

Preparations are being made to rebuild the garage of Palmer & Thomas on Oberlin avenue, recently destroyed by fire. The destroyed autos, other machinery and rubbish are being cleared away in order to ascertain the amount of damage done to the concrete floor. The proposed building is to be made of concrete blocks with steel roof and beams, and will be as nearly fire-proof as is possible to make a garage. The warehouse belonging to Byron Bros. destroyed at the same time will also be replaced.

## Prohibition Agents' Activities

Prohibition Agent Duff last week captured a new still on the farm of George Wilhoit on the waters of Upper Salt Lick Creek in Menifee county. Wilhoit was arrested and brought here. On Tuesday of this week Mr. Duff and son Carroll Duff captured a moonshiners outfit on the farm of Ponders near the Menifee line. The outfit consisted of such articles as five stand, wash tubs, malt, furniture, barley meal and other things too numerous to mention all placed under tarpaulin for protection from the weather and hidden in a hollow.

## LYRIC THEATRE BURNS

On Tuesday morning about six o'clock smoke was seen issuing from the doors of the Lyric Theatre building and on investigation the whole rear end of the building was found to be ablaze. The chemical tanks and fire engine were soon in operation but not in time to save the building being damaged beyond repair. All of the seats piano, interior woodwork, floor and everything in the building were charred to such an extent that they cannot be made serviceable. The two projecting machines which were in the concrete booth were saved.

The origin of the fire is unknown unless it be that some of the timbers near the stove caught fire from that source the night before, when a performance was held at the theatre, and had smouldered during the night and burst into flames the next morning. That the fire caught near the stove is apparent as at this part of the building the ceiling and roof were burned through. Mr. Morgan, the owner of the theatre had \$4,500 insurance on house and contents, which will not cover damage. He is undecided at present as to what he will do but will probably rebuild in the spring. This is the second time the Lyric theatre has been destroyed by fire, while under Mr. Morgan's ownership. The first fire was in June 1920 when the Masonic Hall was destroyed. The theatre occupied the first floor of that building.

## Addresses Bible Class

Commonwealth's Attorney W. C. Hamilton, of Mt. Sterling, addressed the Bible Class of the Christian Church Sunday morning, concerning ways and means of increasing attendance and holding the interest of the members. His address was well received by a large audience. For some time past there has been a contest between the men's and women's classes of the Christian Sunday School as to which could muster the largest attendance. At the present time the men have an advantage of about ten. The first Sunday there were 44 members in each class. The contest is to continue until Go to Sunday School Day in May when the side losing the contest is due to have a banquet and invite the winners. Mr. Hamilton called attention to the fact that the friendly rivalry of the two classes was conducive to the upbuilding of the Bible School in that it brings out a large attendance and tends to establish the habit of going to Sunday School which is not only beneficial to the individual but is a fine example to the younger folk of the community.

## Opposes Cut in Army

Gen. John J. Pershing has sought the aid of President Harding to prevent Congress from carrying out its announced intentions of cutting the regular army to 115,000 men. General Pershing believed that the regular army should not be cut lower than 150,000 men. The army now consists of about 137,000 men and 13,000 officers. Congressional printers in line with the economy policy being pursued by the Appropriations Committee plan to cut from \$50,000,000 to \$75,000,000 from the army appropriations bill.

## Pool Violators Face Suits

Prosecution of growers who have sold tobacco belonging to the Burley Growers' Association and of warehousemen who have allowed or induced growers to sell such tobacco will be begun in a few days, was announced at the conclusion of a meeting of the Board of Directors last week. The prosecution of the warehousemen will be carried on probably as criminal cases under the provisions of the Bingham marketing law laying a penalty of \$500 on the warehousemen for buying or permitting a sale where he had knowledge that the grower was a member of the Association.

## May Cut Cash From Bonus Bill

While elimination of the cash feature was not actually decided upon, yet the general understanding is that the cash feature, if retained will be made so much less attractive than the other features of the bill that there will be only a small demand for it.

Cassidy will preach at the school house, Saturday and Sunday March 18 and 19. Everybody cordially invited to attend.

"Delicious Sweets" fresh, every Friday at R. C. Byron's.

## Burley Association Pays Half Of Debt

The excellent financial condition of the Burley Tobacco Growers' Association is attested by the fact that the various banks including Farmers Bank and Owingsville Banking Company authorize them to draw on Security Trust Co. for one-half the amount of the notes held against the Association.

The loan, for approximately \$5,500,000, was made February 1st, in order to enable the Burley Association to make temporary advances to the growers on their crops. It is stated further that the Association expects to pay the remainder of the notes in a short time and officers of the Association believe it will not be necessary to call on the banks, or the war Finance Corporation for further assistance in financing the present crop.

Funds for the payment on the notes were derived from the sale of about 60,000,000 pounds of the Burley Tobacco pool which brought between fifteen and twenty million dollars. This represents about half the pooled crop.

## Good Roads Is Key

"Good roads is the key to prosperity," says Gov. Shoup, of Colorado in a speech before the Pike's Peak, Ocean to Ocean Highway Association. He said further, "The United States is paying a penalty of more than \$504,000,000 per year in excessive cost for transportation of agricultural products from farm to market alone. There are thirty million children in the country who should be attending school but of this number only 18,000,000 get there. The building of 50,000 miles of national highway will provide steady employment for all idle unemployed and will add to the national wealth, not less than \$300,000,000 and save annually in wear and tear of vehicles not less than \$500,000,000. It will induce people to stay at home and 'see America first' thus saving at home, annually, more than \$250,000,000."

**Mt. Sterling's Hotel Project**  
A number of the citizens of Mt. Sterling are behind a project to cure for their town a hotel which will adequately meet the needs of the community. Their plan is to issue common stock only, to be sold at \$100 a share, payment for which is to be made at convenient periods. There will be no bonded or mortgaged indebtedness. The site has not been definitely settled or the amount necessary to be raised. A special board of the company will employ an experienced hotel manager on a salary. It is the belief of the company that after operations begin the company will be able to pay a dividend of six per cent.

## YOUNG GIRLS NEED CARE

### Mothers, watch your Daughters' Health

#### Health Is Happiness

From the time a girl reaches the age of twelve until womanhood is established, she needs all the care a thoughtful mother can give.

The condition that the girl is then passing through is critical, and may have such far-reaching effects upon her future happiness and health, that it is almost criminal for a mother or guardian to withhold counsel or advice.

Many a woman has suffered years of prolonged pain and misery through having been the victim of thoughtlessness or ignorance on the part of those who should have guided her through the dangers and difficulties that beset this period.

Mothers should teach their girls what danger comes from standing around with cold or wet feet, from lifting heavy articles, and from overworking. Do not let them over-study.

If they complain of headache, pains in the back and lower limbs, they need a mother's thoughtful care and sympathy.

**A Household Word in Mother's House** writes Mrs. Lynd, about Lydia E. Pinkham's Vegetable Compound.

"My mother gave me Lydia E. Pinkham's Vegetable Compound when I was 14 years old for troubles girls often have and for loss of weight. Then after I married I took the Vegetable Compound before each child was born and always when I felt the least run-down. Both my

sister and sister-in-law take it. They have only the highest praise for it. It has been a household word in my mother's house for years." — Mrs. KATHERINE LYND, 2431 Gladys Ave., Chicago, Ill.

**A Little Book Helped Her to Decide** Milwaukee, Wis. — "My daughter took Lydia E. Pinkham's Vegetable Compound as she was so weak and did not feel like going to school. She was like that for a whole year before taking your Vegetable Compound. I found a little book of yours in my mail-box and decided to give her your medicine. She is now strong and well and attends school every day. We recommend your Vegetable Compound to all mothers with weak daughters. You may use this letter as a testimonial." — Mrs. E. KLUCZNY, 817 20th Ave., Milwaukee, Wis.

"I was always feeling tired and sleepless, was losing weight and would faint at times. I had other troubles too, that made me feel badly. I read your little book and heard friends talk about the good Lydia E. Pinkham's Vegetable Compound had done them, so I have taken it too. The results are most satisfactory. For I have gained in weight and my bad symptoms are gone. I recommend your Vegetable Compound to all my friends and you may make whatever use you like of this letter." — GLORIA RAMIREZ, 1116 9th Ave., Tampa, Florida.

**Warranted Loquacity.** "That little fellow does not seem to be very talkative," commented the picture enlarger.

"Well, no; not as a general rule," replied Jack Johnson of Rumpus Ridge, Ark. "But he can talk all right when he's got anything to say. For instance, he slipped and set down in a little of hot water tuffer day, and fairly plumed the surrounding atmosphere with his remarks." — Kansas City Star.

**THE MAN WHO LOOKS VIGOROUS**

Good red blood is the only sure foundation of Permanent Health and Vigor.

Good color, bright eyes, solid flesh, erect bearing are dependent upon rich red blood. If your blood is not up to the mark your general health can't be. Late hours, eating the wrong foods, working indoors, fatigue, affect the blood. So many people eat well and take exercise, yet never seem to improve in health. **A Conflict.** "Will you promise me never to gamble?" "But aren't we to be married?" — Judge.

**MOTHER! CLEAN**

**CHILD'S BOWELS WITH CALIFORNIA FIG SYRUP**

Even a sick child loves the "fruity" taste of California Fig Syrup. If the little tongue is coated, or if your child is listless, cross, feverish, full of cold, or has colic, give a teaspoonful to cleanse the liver and bowels. In a few hours you can see for yourself how thoroughly it works all the constipation poison, sour bile and waste out of the bowels, and you have a well, playful child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup. — Advertisement.

(CHAPTER XIII.—Continued.)

Long ago Mr. Shaw had left the field to Violet and with a curt shrug had turned his back and stood looking out over the cove, stroking his chin reflectively. Miss Browne's eloquence had risen to amazing heights, and she already had Mr. Tubbs luxuriously basking with Annias and Sapphira, when the Scotchman broke in upon her raptures.

"Friends," he said, "so far as I can see we have been put a good bit ahead by this morning's work. First, we have the grave which should be our landmark has not been entirely obliterated by the jungle, as I had thought most likely. Second, we know that it is on this side of the island, for the reason that this chap Tubbs hasn't risen at all, and I have lost it. But he maintained an air of jaunty self-confidence, slightly tinged with irony. It was all very well, he seemed to imply, for us to try to get along without H. H. I would discover the impossibility of it soon enough."

Mr. Tubbs, however, had been led to the cabin by Miss Huggles-Browne. You now heard the voice of Violet in exhortation, mingled with Aunt Jane's sobs. I seemed to see that an ear of Mr. Tubbs was cocked attentively in that direction. He had indeed erred in the very wantonness of triumph, for a single glance would have kept Aunt Jane loyal and prodigal of excuses for him in the face of any treachery. Not even Violet could have clapped the lid on the up-welling flow of sentiment in Aunt Jane's heart. Only the cold contemplating eye of H. H. himself had congealed that tepid flow.

The morning went on with ever-increasing heat, and as nothing happened I began to find my watchful waiting dull. Crusoe, worn out perhaps by some previous exertion, peeped, slept heavily where the drip of the spring over the brim of old Heintz's kettle cooled the air. I began to consider whether it would not be well to take a walk with Cuthbert Vane and discover the tombstone all over again. I knew nothing of course, of Mr. Tubbs' drastic measures with the celebrated landmark. As to Cuthbert's interrupted courtship, I depended on the vast excitement of discovering the cave to distract his mind from it. For that was the idea, of course—Cuthbert Vane and I would explore the cave, and then whenever I liked I could prick the bubble of Mr. Tubbs' ambitions, without relating the whole strange story of the diary and the

But as the cave drew near I felt like a magnet. I jealously desired to be the first to see it, to snatch from Mr. Tubbs the honor of discovery. As I wanted to know about poor Peter—and the doubts that he had gone back to fetch and counting to another crediting you with the former sixteenth share of Mr. Tubbs."

"Don't do it, Shaw—hold the fort, old boy!" broke in Cuthbert Vane. "I say, Miss Browne, this is a bally shame!"

Miss Browne had always treated the prospective Lord Grasmere with distinguished politeness. Even now her air was mild, though lofty.

"Mr. Vane," she replied, "as a member of the British aristocracy, it is regrettable to suppose that you would view financial matters with the same eye as those of us of the Middle Classes, who, unhappily perhaps for our finer feelings, have been obliged to experience the harsh conditions of common life. Your devotion to Mr. Shaw, however, is a noble one which I cannot but admire. But permit us also our enthusiasm for the perspicacity of Mr. Tubbs, to which we owe the wealth now within our grasp."

(TO BE CONTINUED.)

**How Camel Got His Harelip.**

In "The Women of Egypt" Mrs. Elizabeth Cooper, the author, says that when she decided to ride a camel and she was brought to the door she said to the man who was to accompany her, "I cannot but admire, but permit us also our enthusiasm for the perspicacity of Mr. Tubbs, to which we owe the wealth now within our grasp."

At this point in my meditations the door of the cabin opened and Miss Browne came out, looking sternly at me. Aunt Jane followed, very pink about the eyes and nose. With a commanding gesture Miss Browne signalled the rest to approach. Mr. Tubbs bounced up with alacrity. Mr. Shaw and Cuthbert obeyed less promptly, but they obeyed. Meanwhile Violet waited, looking implacable at me.

"And where is Captain Magnus?" she demanded, glancing about her.

But no one knew what had become of Captain Magnus.

As for myself, I continued to sit in the shade and tat. But I could bear with ease all that was said.

"Mr. Tubbs," began Miss Browne, "your recent claims have been matter of prolonged consideration between Miss Harding and myself. We feel we cannot but feel that there was a harshness in your announcement of them, an apparent concentration of your own interests, ill befitting a member of this expedition. Also, that in actual fact, they were excessive. Not that Mr. Tubbs, oh, no, not half! But one-quarter, Miss Harding and myself, as the joint heads of the Harding-Browne expedition, are inclined to think no more than the reward which is your due. We suggest, therefore, a simple way out of the difficulty. Mr. Dugald Shaw was engaged

also depress the lower jaw to its greatest extent, contract a number of muscles in the neck, shoulders and trunk, widely open the mouth, close the eyelids, feel none of the things and have a feeling of pleasure and satisfaction. We stretch the arm, extend the trunk. Altogether it is a complex performance.

**Exertion in Yawning**

The amount of effort we make in yawning is surprising. Dr. C. Mayer, writing in the Lancet, says there are three stages, and the whole process lasts for about six seconds. In that time we widen the chest, lower the larynx, elevate the wings of the nose and the soft palate, draw the tongue forward and backward, and the rima glottidis, the true vocal

on liberal terms to find the treasure. He has not found the slightest clue to its present whereabouts. Mr. Tubbs, on the contrary, has found a clue. It is a clue of the first importance. It is equivalent almost to the actual discovery of the chest. Therefore let Mr. Shaw, convinced I am sure by this calm presentation of the matter of the justice of such a course, resign his claim to a fourth of the treasure in favor of Mr. Hamilton H. Tubbs, and agree to receive instead the former allotment of Mr. Tubbs, namely, one-sixteenth."

Having offered this remarkable suggestion, Miss Browne folded her arms and waited for it to bear fruit.

It did—in the enthusiastic response of Mr. Tubbs. "Well, well," he exclaimed, "to think of our takin' old H. H. that little! O' course, havin' formed my habits in the financial centers of the country, I named a stiff price at first—a stiff price, I won't deny. But that's just the little way of a man used to handling large affairs—nothing else to it, I do assure you. The Old Man himself used to say, 'There's old H. H.—you'd think he'd eat the paint off a house, he'll show up that graspin' in a deal. And all the time it's just love of the money. Let him know he's goin' to win out, and bless you, old H. H. will swing right round and fair force the profits on the other party. If H. H. is slicker than soap to handle, if only you handle him right!'" Can I say anything harder than that just now, H. H. was not handed right? Instead of bein' joshed with, as he looked for, he was took up short, and even then which he might have expected to show confidence—here Mr. Tubbs cast a reproachful eye at Aunt Jane—"run off with the notion that he meant just what he said. All he'd done for this expedition, his loyalty and faith to same, was forgotten, and he was thought of as a self-seeker and voracious shark!"

The gain of these reflections damned the torrent of Mr. Tubbs' speech.

"Oh, Mr. Tubbs," breathed Aunt Jane, broken-breasted, and of course a tear trickled gently down her nose, following the path of many previous tears which had already left their saline traces.

Mr. Tubbs managed in some impossible fashion to roll one eye tenderly at Aunt Jane, while keeping the other fastened shrewdly on the remainder of his audience.

"Miss Huggles-Browne and Miss Jane Harding," he resumed, "I accept. It would astonish me as has only known H. H. on his financial side to see him agree to a reduction of profits like this without a kick. But I'm a man of impulse, I am. Get me on my feet and a kick ain't much more impulsive than old H. H. And o' course the business of this expedition ain't jest business to me. It's—er—friendship, and—er—sentiment—in short, there's feelin's that is more than worth the family feud in gold!"

At these significant words the agitation of Aunt Jane was extreme. Was it possible that Mr. Tubbs was declaring himself in the presence of others—and was a response demanded from herself—would his sensitive nature, so lately wounded by cruel suspicion, interpret her silence as fatal to his hope? But while she struggled between maiden shyness and the fear of crushing Mr. Tubbs, the conversation lulled and swept on.

"Mr. Shaw," began Miss Browne, "you have heard Mr. Tubbs, in the face of the expedition, liberally consent to reduce his claim by one-half. Doubtless, if only in a spirit of emulation, you will attempt to match this concession by canceling our present agreement to fetch and counting to another crediting you with the former sixteenth share of Mr. Tubbs."

"Don't do it, Shaw—hold the fort, old boy!" broke in Cuthbert Vane. "I say, Miss Browne, this is a bally shame!"

"Don't do it, Shaw—hold the fort, old boy!" broke in Cuthbert Vane. "I say, Miss Browne, this is a bally shame!"

Miss Browne had always treated the prospective Lord Grasmere with distinguished politeness. Even now her air was mild, though lofty.

"Mr. Vane," she replied, "as a member of the British aristocracy, it is regrettable to suppose that you would view financial matters with the same eye as those of us of the Middle Classes, who, unhappily perhaps for our finer feelings, have been obliged to experience the harsh conditions of common life. Your devotion to Mr. Shaw, however, is a noble one which I cannot but admire. But permit us also our enthusiasm for the perspicacity of Mr. Tubbs, to which we owe the wealth now within our grasp."

As for myself, I continued to sit in the shade and tat. But I could bear with ease all that was said.

"Mr. Tubbs," began Miss Browne, "your recent claims have been matter of prolonged consideration between Miss Harding and myself. We feel we cannot but feel that there was a harshness in your announcement of them, an apparent concentration of your own interests, ill befitting a member of this expedition. Also, that in actual fact, they were excessive. Not that Mr. Tubbs, oh, no, not half! But one-quarter, Miss Harding and myself, as the joint heads of the Harding-Browne expedition, are inclined to think no more than the reward which is your due. We suggest, therefore, a simple way out of the difficulty. Mr. Dugald Shaw was engaged

## AID FOR MERCHANT MARINE IS URGED

PRESIDENT HARDING PRESENTS CONCRETE PLAN TO KEEP FLEET AFLOAT

Customs Levy Would Supply Ship Subsidy—Other Provisions For Upholding America's Pride On Seven Seas—Naval Reserve Is Provided.

Washington.—Solution of the American merchant marine problem was put squarely up to Congress by President Harding, when he appeared before a Joint session of the Senate and House of Representatives with a message setting forth in detail of concrete plan for the rehabilitation and maintenance of an adequate merchant marine through Government aid.

The Administration plan based upon comprehensive study of the subject by members of the United States Shipping Board and other maritime experts concerned with the restoration of American commercial supremacy on the high seas, contemplates the return to private interests of the gigantic fleet of United States merchant ships built during the World War under conditions which will insure to them a reasonable return on their investment. In essentials it differs slightly, if any, from forecasts of the last few days providing both for direct subsidies and indirect aid to the owners and operators of vessels flying the flag of the United States.

Direct subsidies are to be paid from a fund to be established by diverting 10 per cent of all customs receipts, and all tonnage charges, taxes and fees imposed on vessels entering the ports of continental United States, estimated to yield approximately \$32,000,000 annually. Indirect aid is to be provided by appropriating one-half of all profits above 10 per cent, establishing of a construction fund of \$125,000,000 from the sale of the tonnage now held by the Shipping Board, to be loaned for shipbuilding at 2 per cent, deductions from income tax of 5 per cent on profits to 5 per cent of freight paid on goods imported in American ships, and more liberal depreciation allowances to the income tax returns on ships. Other provisions of the plan contemplate that not more than 50 per cent of the immigrants to the United States shall be transported in foreign ships and the induction of American merchantmen officers and sailors into the naval reserve, with allowance in pay.

### AGE LIMIT

Boston, Mass.—High in the Andes Mountains of Peru lives a race that sets an age limit and kills all who reach the fateful mark, says Dr. Joseph Barcroft, British scientist and author, who headed a expedition to Peru to study the effect of high altitudes on the oxygen content of the blood. The party passed practically all of its time at Cerro de Pasco, a mining town of 10,000 inhabitants, 14,200 feet above the sea level. "In each village," said Dr. Barcroft, "we are delivering a series of lectures at Lowell Institute, 'an official is appointed to terminate the careers of persons who live too long.'"

## REFUGEES KILLED BY THOUSANDS

WHILE FLEEING FROM IRON HAND OF SOVIET, GERMANS SAY

Reich Roumania Only To Be Pushed Back Into Fire of Bolsheviks, Survivors Declare—Bodies Lie in Snow On Bank of Danube, Reports Fugitive.

Berlin.—Refugees crossing the Danube from Russia into Roumania are being sent back across the frozen river by General Popovich, Roumanian refugee controller, and then are shot by the Cheka as soon as they set foot on Russian soil, according to the story told by Germans arriving from the Volga district, who crossed into Roumania two weeks ago.

"The only exceptions are persons who can lay claim to a piece of ground or a house in Roumania, or whose diplomatic representative supply funds for transportation through the country," said Friedrich Hartmann, a forty-seven-year-old Russian, born of German parentage and formerly attached to the city administration in Saratov, who has reached Berlin. Hartmann declared that thousands had been shot by the Bolsheviks and now lie in heaps under the snow on the Russian side.

"I saw the bodies of 40 Russian Jews whom the Cheka shot when on the Russian shore, to which they had been driven by Roumanian rifles after running the Soviet guard," said Hartmann. "This took place shortly after a score of Germans crossed in our party."

"Two men told me they had seen the shooting, but, not believing this, went to the river and saw the bodies lying in the snow where they had fallen a few minutes before. They were thrown into a common grave, to be frozen until spring."

"We were being held by Roumanians while the German Minister was arranging transportation to Germany," Hartmann asserted that Bolshevik officers and soldiers were a law unto themselves when on duty at isolated stations, or alone. The orders of Nikolai Lenin and Leon Trotsky never were posted and never were known, he said.

## CASH BONUS SIDETRACKED

Substitute Plan Would Provide Insurance And Postpone Levy Three Years

Washington.—Republican members of the House Ways and Means Committee agreed to eliminate the cash payment plan from the five-year bonus to World War veterans and to substitute a semi-cash insurance certificate plan. The decision is tentative in that this form of the bill will not be insisted upon if fiscal experts pronounce it to be unfeasible. But virtually every member of the committee is confident it is practicable and should Treasury officials declare to the contrary it will be a matter for public opinion to determine what will be done.

The decision means that new taxes will not have to be devised or present ones increased for three years, and that all bond-selling schemes, too, are eliminated.

Leaders believe that within three years business will have improved so that this volume will add more revenue without increasing the tax burden and that a part of the interest on the foreign debt will be available by then—that the succeeding Congress will not have the nut to crack that confronts this one.

WITH AMERICAN WORKERS IN APRIL, ASSERTS OFFICIAL FOLLOWING PEACE CONFERENCE

Prospect For An International Walk-Out Is Certain If Operators And Men Fail To Agree, This Official Declares.

Calgary.—Canada and the United States face an international strike of coal miners, to begin April 1, a statement issued by Robert Livett, International Board member for District No. 18 United Mine Workers of America, declared. The announcement followed the break up of the peace conference between miners and operators. Mr. Livett said that ballots have been sent out to all locals of the United Mine Workers in both Canada and the United States and that members are being asked if they desire to give power to the Policy Committee appointed at the Indianapolis convention to call a general strike April 1 if agreements are not consummated by that date.

Ballots are to be returned to district headquarters by March 15. Mr. Livett would not express an opinion regarding the probable outcome of the vote. Mr. Livett said the next move was up to operators. They refused at a meeting here to negotiate other than on their own demands, he said. "As soon as they are willing to recognize their own position we will be only too willing to reach an agreement that will be satisfactory to both sides. The situation is such that in all probability there will be a cessation of operations April 1 unless operators alter their attitude in the interval," he said.

## Created, Not Evolved

If the Ellis Anti-Evolution bill is passed by the General Assembly it will be up to Kentuckians to acknowledge Adam as their ancestor whether they want to or not. We know some people that say they believe there is "something in" evolution and to judge from the external appearances of some people one might say off-hand, there must be something in the theory but Kentuckians object to the teaching of such stuff in the public institutions of the State.

## Mary Pickford Wins Verdict

Mary Pickford does not have to pay C. C. Wilkenning any part of the \$108,000 which Mrs. Wilkenning claims was due her as commission for getting the film star a raise to \$10,000 a week. This was the verdict of a Federal Jury returned Thursday before Judge Mack in the New York courts.

Clark County's assessment is \$27,613.065 for 1921.

## Fortunate Is The Man With Hogs

Farmers who raised a large crop of corn last year and have a good bunch of hogs to feed to it are certainly in a position to be envied by their less fortunate neighbors. They are the ones who are in a position to show a profit on their farm operations.

The difference between the market price of corn and pork has seldom been as favorable for the hog feeder as it is at the present time. We have more corn than we have a market for, as corn, at a fair price, that is why corn has been so cheap. Past experience shows that in years of extra heavy crops those forehand farmers who have been able to hold their corn crops for two or three years have usually made good interest on their money in holding it. At the present time, however, few farmers can afford to hold, they are anxious to get out of debt and want to turn the corn into cash.

Now it will be very much better for everybody if more corn is fed to hogs, and for two reasons. At prices, which hogs are now selling, the farmer will net from 80 cents to one dollar per bushel for his corn fed to hogs, depending, of course, on his distance from market. The more corn fed to hogs and cattle, the more corn we get rid of and the thing to do now is to get rid of this surplus corn. If we carry it over it will hang as a dead weight over the market and keep corn prices depressed unreasonably.

Approximately 80 per cent of the corn crop is fed on the farm and the price is made by the other 20 per cent, that goes to market. A small addition to this 20 per cent has a very depressing effect on the price.

The point we want to keep in mind that we want to get rid of our surplus corn and not hold but feed it to live stock now, which we can do at a profit.

During the 1921 season there were over a million less hogs received at the 69 markets in the United States than in the preceding year, while this is only 24 per cent decrease. There were 41,000,000 head sent to market, 26,333,000 were slaughtered and 14,666,000 head were shipped away from these centers, showing that over one-half of the hogs that were slaughtered were shipped a sea.

At this time it is not possible to say what the spring pig crop will be. From all indications there will be an increased number this spring and if our predictions are true this big corn crop which on Dec. 1st, was equal to 28 bu. per capita in the United States will disappear very rapidly and the stock on hand next harvest will be less than the most optimistic expectation could anticipate.

The hog business is fundamental to our agriculture program. It is a source of great manipulation and at the same time, is the source of much good bank account.

The future looks bright.

The old fashioned spelling bee between the Women's Club and the Chamber of Commerce will be at the Court House, Wednesday, March 15.

## Electric Bell for Poultry House.

Many people have been bothered with night prowlers around and about the buildings. The following plan may be used in installing electric bells, which will immediately sound an alarm. A strip of copper is bent around the doorknob shank, and is clamped with a small screw, which is also used as a terminal. Fasten a metal strip to the door and bend it out between the prongs of the strip and run to the electric bell. Now when the knob is turned in either direction the circuit is closed and the bell will ring.—Experimenter.

## Sympathetic.

Tommy came to his mother the other day, crying and complaining that his big sister had been teasing him. "Mamma," he said between sobs, "I wish you would spank Elizabeth." "Now, Tommy," his mother replied, "you wouldn't want to see your sister whipped, would you?" "No, mamma! But you can take her upstairs and do it where I can't see you."

## MOTHER GAVE IT

Virginia Lady Suffered With Aches and Pains Until Mother Began Giving Her Cardui.

Dublin, Va.—Miss Mary Alice Huggert residing on Route 2, near here, recently told a visitor of her interesting experience with Cardui. Miss Huggert said: "I had been suffering for some time with painful . . . I was pale, didn't feel like going. Would just drag around, and couldn't rest to do any good. I would suffer once a month with my back, sides and head. My limbs would ache and I didn't know what to do, but I knew I must do something for I didn't get well by letting it run on. "My mother is a believer in Cardui, for she saw what it did for others as well as herself, so she began giving it to me.

"It wasn't long before I saw a change. It was just what I needed. It regulated me. I began to eat and sleep, and the pain stopped. "Cardui is without doubt the best female tonic made, and I am glad I can recommend it.

"If suffering with symptoms such as Miss Huggert mentions, or other ailments peculiar to women, why not get Cardui at once? Its merit is well established by successful use for more than 40 years. Try Cardui! Your druggist sells it. NO-138
